

Archaeological Field School

June 16-July 27, 2024

Rabe Anka Siget, Serbia

Overview

This intensive 6-week program provides broad training in archaeological methods: excavation, mapping, compilation of field data, and laboratory processing. Working with a mentor, students will develop their own small research project, exploring one analytic technique in detail.

Requirements

- Enrollment at the University of Belgrade
- Archaeology major (or related field)
- English language competency

Project Details

- International field school (University of Wisconsin-La Crosse and the University of Belgrade)
- All local expenses covered (food, housing, equipment, transportation to/from site, etc.)
- Weekly stipend

Apply
